SUMMARY

Cart-Away Concrete Systems, is the worldwide leader in small batch concrete delivery solutions. We are best known for our 1-cubic yard to 7-cubic yard mixing or delivery systems. All of the Cart-Away equipment is manufactured in Oregon/USA and is finished and assembled to the highest standards. Cart-Away mixers and delivery systems have decades of field-service and are supported by a seasoned customer service team.

BUSINESS SUMMARY:

Since 1993 Cart-Away has demonstrated that the success of our customers is what fuels our business success. We know that adding extra value from in-field experience sets us apart from those who just want to sell equipment. We back this up with a fully-stocked parts/support department that is not normally found in this niche.

CAPABILITIES & EXPERTISE:

Most of our sales and support staff spent years in the concrete supply industry prior to joining Cart-Away. We continue to demonstrate the beneficial results that come from actual experience. Our customers rely upon us to produce solid concrete and we take that responsibility very serious.

FACILITIES AND EQUIPMENT:

Cart-Away has a reputation for innovation and efficient manufacturing. Our facility has the local reputation as “The place to work”. Our equipment is recognized for proven practicality in a compact package. Cart-Away machines are powder-coated for extra durability and are designed to meet the military specification of 70-plus drum rotations per batch.

CUSTOMERS:

We supply mixers to NATO – US Navy Seabees - Multiple US Air Force Bases, and Local Municipalities from California to Florida.

In addition, there are thousands of our trailer-mounted mixers working in rental locations throughout North America.
